Re: Energy Efficient Measures at Our Centre

Dear Dave,

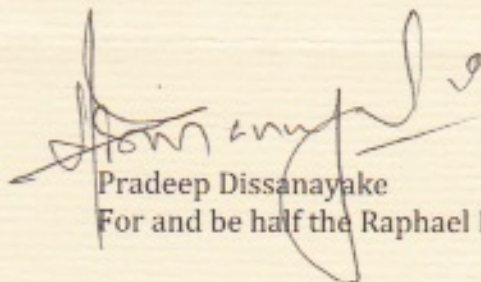

We would like to write to you to thank you for the energy efficient work you have carried out on our site.

To date we have implemented your boiler control technology and we are seeing savings in the region of 18% on our oil bills.

We are still looking to work with you on our lighting project, as these savings look just as strong.

Your service is very professional and we would highly recommend your company to anyone looking to reduce their energy consumption.

Sincerely yours

Pradeep Dissanayake
